

CASE STUDY

MOOSE PHARMACY

Taking control results in cost savings and better benefits that delight the employer and participants

CLIENT SUMMARY

Moose Pharmacy opened in 1882 in Mt. Pleasant, NC. As the name suggests, the business is a family-owned and operated pharmacy that has grown from one location to now proudly serving customers at seven locations in the area all under the active management of the Moose family spanning four generations.

- Plan launch: 2020
- Location: Mt. Pleasant, NC
- Number of employees: 100

CHALLENGE

Growing employer costs were frustrating. But the tipping point came when their former plan required “plan participants to have their prescriptions filled at (a large national retail pharmacy chain) or via mail through the mail-order division”.

SOLUTION

Switching to an employer-built plan, Moose Pharmacy now enjoys lower costs and better benefits, including:

- Independent, flexible plan
- Transparent pharmacy benefits manager
- Telemedicine, mobile urgent care, imaging, and generic drugs at no additional cost

RESULTS

PLAN BENEFITS

More flexibility

ANNUAL COST SAVINGS

\$40,000+
